30th October, 1982.

Dear Pastor Paul,

May God our Father and the Lord Jesus Christ give you grace and peace.

I hope that you are carrying on well with this ministry through God's power and beautiful grace to you.

It is almost more than one month since I received the last packet of cassettes from you. Since I have been accustomed to receiving your cassettes fortnightly this quietness has filled me with anxiety. I have kept on asking myself in my heart why these precious cassettes are not forthcoming anymore. How I long to go on receiving them and hearing your sermons! Dear Pastor what has caused this undesirable abatement?

We have a saying in Swahili language that when a child tastes honey he/she longs to go on eating until there is no more. Now, I have been tasting and eating this precious honey (cassettes - Sermons) which you have been sending me. Does it mean that there is no more? Dear Pastor, if there is still more possibility of sending me your cassettes, ^{please} do not deny me this golden opportunity of learning and being enriched spiritually through your sermons. I ask you earnestly!

I am ^{still} looking forward to receiving your cassettes perpetually.

Convey my fraternal greetings to your family as well as your dear co-workers.

Yours in fraternal love,

Pastor Hamington Mubareka
